136A.5A Newborn critical congenital heart disease screening.

- 1. Each newborn born in this state shall receive a critical congenital heart disease screening by pulse oximetry or other means as determined by rule, in conjunction with the metabolic screening required pursuant to section 136A.5.
- 2. An attending health care provider shall ensure that every newborn under the provider's care receives the critical congenital heart disease screening.
- 3. This section does not apply if a parent objects to the screening. If a parent objects to the screening of a newborn, the attending health care provider shall document the refusal in the newborn's medical record and shall obtain a written refusal from the parent and report the refusal to the department.
- 4. Notwithstanding any provision to the contrary, the results of each newborn's critical congenital heart disease screening shall only be reported in a manner consistent with the reporting of the results of metabolic screenings pursuant to section 136A.5 if funding is available for implementation of the reporting requirement.
- 5. This section shall be administered in accordance with rules adopted pursuant to section 136A.8.
